Additionally, the Examiner required, if the Applicants elected the invention of group I, that the Applicants further elect one species from each of the following groups of claims:

Group One:

- Species A: directed to claims 5 and 34, drawn to bundle patterns.
- Species B: directed to claims 6 and 35, drawn to transform patterns.
- Species C: directed to claims 7 and 36, drawn to nontransform patterns.

Group Two:

- Species A: directed to claim 10, drawn to bundle patterns based on a set of anchors.
- Species B: directed to claim 11, drawn to bundle patterns based on a set of rules.

Group Three:

- Species A: directed to claim 21, drawn to applying nontransform pattern to the one or more bundled packages.
- Species B: directed to claim 27, drawn to applying transform pattern to the one or more bundled packages.

Group Four:

- Species A: directed to claim 23, drawn to applying nontransform pattern to the one or more of the set of resources.
- Species B: directed to claim 26, drawn to applying transform pattern to the set of resources.

Group Five:

- Species A: directed to claim 28, drawn to fully matching the one or more applicable bundle patterns.
